

HEALTH GUARANTEE & PURCHASE AGREEMENT

fireridgedoodles@gmail.com

Congratulations on the purchase of your new puppy!

As the new owner, we ask you to provide this puppy with a good home, supplying proper diet, and exercise. All payments are due upon pickup or before shipping.

The seller declares the puppy to be in good health, free of disease, and has had first set of vaccinations and worming. The buyer is obligated to have the puppy examined by a licensed veterinarian to verify general health within 5 days of pickup, delivery, or receiving of the puppy for guarantee to be valid. Seller accepts no liability for any communicable diseases or injuries after the puppy leaves the seller's possession. If puppy does not pass health exam, Buyer must notify seller immediately and provide a copy of the original signed licensed veterinary statement of health. Seller has a right to have his veterinarian exam the puppy and is not responsible for the return cost or veterinary fees at any time. If puppy is determined by a licensed vet to be in unfit health to be a pet/companion, buyer has option of returning the puppy to the seller at the buyer's cost for a puppy of equal value. Minor treatable issues such as diarrhea, coccidiosis, giardia, hypoglycemia, parasites, ear mites, or fleas, do not warrant a return or claim and are not covered by this guarantee. With the stress of new circumstances, these can occasionally arise although every effort to prevent this is made.

Seller warrants this puppy free from genetic disease and hip/elbow issues that prevent puppy from being a companion animal for 2 years after date of birth. If puppy is found to be affected by a genetic disease (2 mutated genes) this must be verified by a licensed veterinarian and Paw Print Genetic testing. In the case of hip or elbow deformation affecting the puppy, the buyer must show written notification from licensed veterinarian and OFA as well as x-rays. If genetic disorder is determined, the buyer has the option of returning puppy to seller for puppy of equal value or keeping puppy with refund of 1/2 purchase price.

Seller doesn't guarantee the size, color, and temperament of the puppy, also cherry eye, entropion eye, hernias, and improper bites, although we do our best to be accurate in the description, we can't control all variables. At no time is seller responsible for any of buyer's veterinarian expenses or puppy return costs. Any legal action is to be resolved in Millersburg, OH. Exams from Banfield Clinics or PetSmart are not valid. Warranty is nontransferable.
